

## SCHUMAN DECLARATION 2.0

As world citizens we put forward

this plan

to

ALL HEADS OF STATE  
AND  
ALL LEADERS OF MULTILATERAL ORGANISATIONS,  
Regional or Universal

1. HOMO SAPIENS SAPIENS exists as human race on Earth
2. Political unity can be achieved by registering world citizens, at first symbolically and gradually endowed with increased rights and resources
3. The European Union, United States of America, Russian Federation, Chinese people's republic and all member states of the United Nations have a legal obligation to operate their state and the territory under its control in good neighbourly relations.
4. We need a system of peaceful and regular transition of power for good global governance.
5. To keep alive the flame of world unity and plan for world peace we ask for a forward looking planning unit at the United Nations Organisation. So the secretariat can progressively work toward the convention of a world citizens constituent assembly in 2045.
